

## MARLING SCHOOL – Covid-19 Risk Assessment

### Risk Assessment

<b>Location / Site</b>	Location and site where activity taking place
<b>Marling School – fully open to staff and students from 1<sup>st</sup> September 2021</b>	
<b>Activity / Procedure</b>	Name/type of activity or procedure being assessed
<b>Amendments to Risk Assessment for 2021-22 following removal of Covid-19 restrictions in July 2021.</b> <b>Risk Assessment includes Outbreak Management Plan.</b> <b>Assessed in line with DfE guidance on end of restrictions – 21st February 2022</b>	
<b>Assessment date</b>	Date when assessment is being carried out
<b>14<sup>th</sup> March 2022 – to be updated regularly throughout academic year 2021-22</b>	
<b>Assessment serial number</b>	Local serial/identification number for future reference
<b>Version 1.15 – 14<sup>th</sup> March 2022</b>	

Identify people at risk	YES or NO
Employees	YES
Students	YES
Visitors	YES
Contractors	YES

Control measures within this risk assessment apply to the whole Marling School community (Staff AND Students) to minimise the ongoing risks of transmission of the virus. This Risk Assessment should be used in conjunction with all other School and Department Risk Assessments and Policies, which still apply.

Government guidance states that schools must adopt measures in a way that addresses the risks identified in their assessment, works for our school, and allows us to deliver a broad and balanced curriculum for our students, including full educational and care support for students with SEND. The school’s Risk Assessment has regard to government guidance, which in turn has regard to WHO guidance. The latter expressly considers the ages at which a child should wear a mask/face covering

**Prevention:**

- 1) Minimise contact with individuals who are required to self-isolate by ensuring they do not attend school.
- 2) Advise to clean hands thoroughly more often than usual
- 3) Ensure good respiratory hygiene by promoting the ‘catch it, bin it, kill it’ approach
- 4) Continue enhanced cleaning, including cleaning frequently touched surfaces using standard approved products such as detergents and proven sanitisers.
- 5) Keep occupied spaces well ventilated

**Response to any infection:**

- 9) Engage with the NHS Test and Trace process as appropriate
- 10) Adopt Outbreak Management Measures if advised
- 11) Following local health protection team advice

This Risk Assessment does not remove the element of general common sense or professional decision making. If you have any questions please email [ELG@marling.school](mailto:ELG@marling.school)

Exposure to coronavirus following external trips		<ul style="list-style-type: none"> <li>• All trips only to be approved FOLLOWING full risk assessment by trip leader</li> </ul>	<ul style="list-style-type: none"> <li>• All trip proposals to go through Finance Office</li> </ul>	ELG	Ongoing	
Exposure to coronavirus following school clubs and societies	Students Staff	<ul style="list-style-type: none"> <li>• All clubs to be risk assessed and approved by ELG</li> <li>• Staff and Students to sanitise hands and surfaces on entry and exit</li> </ul>	<ul style="list-style-type: none"> <li>• Consider numbers taking part if clubs run across year groups</li> </ul>	Staff leading club	Ongoing	

### Outbreak Management Plan

Outbreak Management will be led by the Business Manager, in communication with the local health protection team and the School Leadership Team.

In the event of a localised outbreak, the following measures may be temporarily re-introduced at any time. Any changes to school operations will be communicated to parents and staff via email.

Face Covering	Face covering (masks) may be re-introduced in the event of a localised outbreak. This may be in all areas, or in areas where social distancing is not possible, such as corridors and communal areas. Students may be asked to wear face masks on school and public transport. Face masks will be made available from school stocks for a limited time if guidance is introduced at short notice.
Re-enforcement of “rules”	Over time, staff and students may relax their attention to the measures that reduce the transmission of the virus. The measures may be re-enforced in the event of a local outbreak to include; <ul style="list-style-type: none"> <li>• “Catch it, bin it, kill it”</li> <li>• Regular hand washing</li> </ul>

## MARLING SCHOOL – Covid-19 Risk Assessment

	<ul style="list-style-type: none"><li>• Sanitising hands on entry and exit of a classroom</li><li>• Cleaning down surfaces following each classroom use</li><li>• Staff strict 2m rule</li><li>• Ventilation – doors and windows open</li><li>• Classrooms rearranged to face forwards</li><li>• Re-check Seating plans for every classroom</li></ul> <p>In addition, the following measures may also be temporarily re-introduced;</p> <ul style="list-style-type: none"><li>• Postponement of assemblies, events and larger gatherings</li><li>• Postponement of trips and visits</li><li>• Staggered start and finish times, and lunch times</li><li>• Restriction of visitors to the school</li><li>• Shielding, when instructed by national government</li></ul>
Student Bubbles	In the event of a local outbreak, it may be necessary to re-introduce student year group bubbles in order to minimise transmission between year groups. This will inevitably impact on education and is not a decision that will be taken lightly.
Lockdown	A lockdown measure, in which all learning converts to remote online learning, will only be taken if required by the local health protection team or central government. In the event of lockdown the school will be open for the children of key workers and vulnerable children as before.
